LIMITED AVAILABILITY – 5 DAY SPRINT

TPRM REGULATORY EXPOSURE DIAGNOSTIC

# Your TPRM program has *regulatory blind spots.* We find them in 5 days.

A rapid-fire diagnostic built for TPRM executives who need answers now – not a 12-week engagement. Mersli Consulting surfaces your third-party regulatory exposure and hands you a clear roadmap to remediation before your next review cycle.

**\$20,000** Flat fee. Paid upfront to begin. No retainer. No scope creep. One deliverable.

## ⚠ WHY THIS CANNOT WAIT

Regulatory scrutiny on third-party risk is accelerating. If your program has gaps – undocumented concentration risk, missing due diligence on critical vendors, or workflow failures in your approval chain – examiners will find them before you do. This sprint is designed to get there first.

### WHAT YOU RECEIVE

- ✓ Regulatory exposure heat map across your third-party portfolio.
- ✓ Gap analysis against relevant global regulation and control frameworks.
- ✓ Critical vendor concentration risk identification.
- ✓ Due diligence coverage audit — who’s missing, who’s overdue.
- ✓ Prioritized 30/60/90-day remediation roadmap.
- ✓ Executive-ready findings brief for board or regulator.

### 5-DAY SPRINT TIMELINE

- DAY 1** Kickoff + intake. Scoping session, documentation request, stakeholder alignment.
- DAY 2** Portfolio deep-dive. Vendor inventory review, coverage analysis, workflow audit.
- DAY 3** Regulatory cross-reference. Framework gap mapping, concentration risk scoring.
- DAY 4** Findings synthesis. Heat map build, roadmap draft, findings brief development.
- DAY 5** Readout + handoff. Live presentation, Q&A, final deliverable package delivered.

Operate smarter, safer, stronger.
